

1. Workshop Introduction
- ▼ 2. Introduction to Kubernetes
 - ▼ Kubernetes (k8s) Basics
 - What is Kubernetes
 - Kubernetes Nodes
 - K8s Objects Overview
 - K8s Objects Detail (1/2)
 - K8s Objects Detail (2/2)
 - ▼ **Kubernetes Architecture**
 - Architectural Overview
 - Control Plane
 - Data Plane
 - Kubernetes Cluster Setup
 - ▼ Amazon EKS
 - EKS Cluster Creation Workflow
 - What happens when you create your EKS cluster
 - EKS Architecture for Control plane and Worker node communication
 - High Level
 - Amazon EKS!
- 3. Start the Workshop
- 4. Terraform Primer (Optional)
- 5. Creating a private EKS Cluster with Terraform
- 6. Extra Activities (Optional)
- 7. Using Fargate (Optional)
- Conclusion
- Cleanup

Kubernetes Architecture

In this section, we'll cover the following topics:

- [Architectural Overview](#)
- [Control Plane](#)
- [Data Plane](#)
- [Kubernetes Cluster Setup](#)
